

HORUS CHORUS

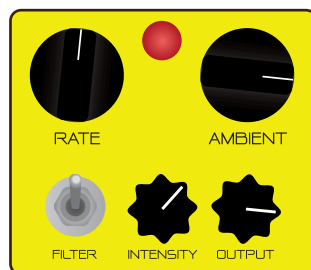

Horus Chorus@ is a vintage sound chorus effect based on legendary smallclone. the circuit modified some part for improve quality of sound and add more control knob for sound creativity

4 control knobs Rate for speed, Intensity for depth and Ambient for reverb room. Output adjust when use with other pedal then louder. we also add the capacitor Filter switch for select speed frequency slow or fast.

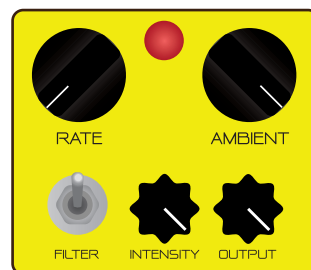

This pedal good for all musical type pop, rock, blues, jazz, it can be used. Appropriate to all kind of music.
